Experience

Freelancer since December 2020.

Notable Skills

#NextJS

HTML&CSS

Strapi

Redux

JavaScript

Affinity

ReactJS

Github&Git

Figma

My Latest Projects

global-distance-education.com - I worked with Shahboz Abdullayev for this project. I created frontend with HTML, Tailwind, SCSS, some JavaScript and my partner developed sites backend with Django.

aziznazarqulov.netlify.app - I created this website for my friend Aziz and this website his new portfolio. I used ReactJS and most popular libraries for this project. For example: framer motion, styled-components, emailJS.

behruz-music.netlify.app - This is my first React Application. You can listen to music with this website. There are a lot of events, options and lo-fi musics. They are fun. I used preprocessor of SASS and so many hooks in this project.
